

Parameters given values: image full text description

Parameter	Argument
month	11
day	29

Image description

A two-column table summarising how in the specific example, parameters are given the values. The first column is Parameter and the second column is Argument. The contents of the table are as follows:

- In row 1, Parameter is month and Argument is 11.
- In row 2, Parameter is day and Argument is 29.
